

## OTHER PROPOSED EXHIBITS

IMAX 3-D THEATRE -- The most powerful and involving film experience in the world, with breathtaking images up to eight stories high and wrap-around 12,000-watt digital sound. IMAX movies will offer every visitor a journey beyond their imaginations --from biplanes to space stations. Newly released movies can create opportunities to host exciting and unique events, including 'FLY-IN PREMIERES'

DIGITAL LEARNING CENTER WITH "INTERACTIVE ADVENTURES" Propellers, sticks, rudders and clouds come to life and inspire visitors. Learn how airplanes fly by moving the stick, how changing a rudder affects the flight path, how to navigate by using radio beams, how to communicate by tapping out a message in Morse Code, how to gauge the weather without Doppler...and many more 'interactive learning adventures.' Distance learning classrooms will be "hooked up" and ready to share lesson plans and learning modules for different grade levels with classrooms all over the world

HALL OF PROPELLORS - Showcasing aircraft propellers from WWII aircraft...from the smallest trainers to the largest bombers -- and see the fantastic interactive scale models of the 77 types of military aircraft that were flown by WASP

MORPHIS VIRTUAL REALITY FLIGHT SIMULATOR- A futuristic, rotating and gyrating capsule, that creates an 'immersive' flight experience, from the Stearman to the Space Shuttle

WALL of INSPIRATION - A talking digital wall of quotes from WASP and those inspired by them -- including WASP accomplishments after deactivation

The AVENGER CANTEEN where visitors can experience history as they sit in a booth, sip a coke and listen to big band music on the jukebox

THE GALLERY - Artwork created by WASP (paintings, carvings, photographs, jewelry, sculpture, needlework, posters, quilts, crafts) and traveling aviation artwork on exhibit

WASP LIBRARY - A complete library of books, articles, records, and speeches. A room full of materials by and about the WASP

DIGITAL VIDEO STUDIO - An on-site state-of-the-art editing studio, designed for creating content for schools, television & radio stations, and other museums

DVD PRODUCER - A public workstation (with complete access to digital footage from WASP interviews and stock footage from WWII) where visitors can create their own WASP movie on DVD to take home with them

WASP GIFT SHOP- filled with WASP memorabilia and other aviation related gifts

The WASP HALL OF FAME -- An evolving gallery of outstanding women who have made a difference in American aviation history, with the first honored inductee being the visionary female pilot who created the WASP -- Jacqueline Cochran

*The WASP WWII MUSEUM is for and about you. Everything in it should honor and celebrate your courage, your patriotism, your determination, your love of flying and your service to your country. We of the WASP WWII Museum Association Steering Committee are proud to be a part of this vision -- to make your history come alive!*

Chamber of Commerce

## THE WASP WWII MUSEUM AT AVENGER FIELD, SWEETWATER, TEXAS!

Announcing plans to build a world class museum to honor you, the first women in history to fly America's military aircraft, to be built at the site of the only air field in America used exclusively to train women pilots to fly 'the Army way'.

**MUSEUM EXTERIOR:** An artistic recreation of the hangar and control tower pictured on the cover, with a life sized WASP statue standing tall and majestic on her pedestal -- braving the West Texas winds. This inspirational statue will be surrounded by pools of sparkling cascading waters and beautiful landscaping, flanked by flags from all the States from which the WASP came. The WASP WWII Museum will be built on a hill at the South end of the Avenger Field, connected with a taxi strip and private tarmac for visiting aircraft.

**MUSEUM INTERIOR** will feature, not the usual WWII airplanes, but the most state-of-the-art, multimedia explosion of educational and entertaining adventures of any museum in Texas. From the time you enter the rotunda of the museum, with its huge 'glass ceiling' dome covering a replica of Avenger Field in 1943 -- airplanes taking off and landing through snow storms or hot Texas sandstorms, in all phases of training, night or daytime flying -- you'll know you're in an extraordinary place!

The centerpiece of this cutting-edge interactive learning museum will be digital video interviews with WASP,

instructors and citizens of Sweetwater, as they relive their experiences and make history 'come alive!' WASP will be EVERYWHERE, surrounding visitors and sharing stories in every corner of every exhibit. Your words will offer colorful examples of the values you have lived by -- honor, patriotism, courage and service.

**TALKING WALLS** will surround visitors as they begin a walk through the interactive exhibits - downtown Sweetwater 1943, with the Bluebonnet Hotel, Railroad Station and the Corner Drug Store. Move on to Avenger Field and walk through a BAY, Ground School Engine Classroom, Morse Code Room, Parachute Packing Room, Link Trainers, Canteen, Ready Room, Mess Hall, and much more.

This is just the beginning! Fasten your seat belts as the people of Sweetwater embark on a mission to build a museum that will honor your service, inspire new generations and make you proud.

This magnificent WASP MUSEUM will be a showpiece for the State of Texas and a lasting testimony to you -- the women who inspired it.
